A culinary wonder, impeccable taste.

A tradition of excellence from Greece.

All around the world, feta cheese is regarded as the Greek traditional cheese par excellence, whose tradition dates back thousands of years. Feta is as old as Greece itself.

Homer in one of his memorable works, the "Odyssey", describes the process of making cheese. Despite the fact that thousands of years separate modern Greece from the ancient Greece in which Homer lived, the process of making Feta remains very similar.

Feta is a very versatile cheese excellent as an appetizer, basic element for cooking. A great variety of cold and hot dishes, and because it is soaked in brine its pickled taste provides a perfect contrast to sweet summer fruits like mangos, apricots, grapes and melons.

This cheese adds extra zip when crumbled onto fresh vegetables, chicken, seafood and most kind of salads or as topping for pizza and pasta. Also makes a great table cheese, paired with olives, and crusty bread. Least but not last Feta cheese is unique for preparing puff or filo pastry delicacies, as the well known "Spanakopita" (Spinach-pie) and "Tyropita" Cheese-Pie), and many others.

Sadaf Cheez is truly the only taste full cholesterol free cheese, the first in it's category to be marketed in USA.
